Podcast Hosting for Universities

A trusted software platform for Higher Education

What is Transistor.fm?

Transistor is a professional podcast hosting, distribution and analytics platform used by many of the top academic institutions. We make it easy to **launch**, **manage**, and **grow** multiple podcasts all from one account.

Why Universities Choose Transistor:

- Web based software, no install required
- Create public & private podcasts
- Unlimited podcasts on all plans
- Unlimited team members
- Annual or monthly billing
- Live chat & email support
